## ABOUT MVIET

### “ Given The Rapid Application Of Technology “

Technology plays a dominant role in accelerating economic development and upgrading quality for life of nation. Technologists duly inspired and imbining human values supported by professional ethics can contribute substantially in making a nation economic super power with high social development index.

India widely recognized as a leading global economy with favourable demographics, needs a rich reservoir of human capital, particularly ethical and proficient technical professionals.

India has witnesses an exponential growth in the technical education sector, largely due to induction of private sector in the last two decades. In Industry and professional organizations, however, the demand for the graduates of high quality technology persists. Therefore, Technological Institutes that can transform young minds into proficient professionals are the need of the hour.

Madhu Vachaspati Institute of Engineering & Technology has been conceptualized designed and established to provide technical education of high quality coupled with holistic personality development and incorporation of human values and professional ethics. All vital and essential ingredients that make an institute of excellence, have been incorporated, interallied with accomplished faculty and mentors, wellendowed academic infrastructure and conducive ambience for learning. MVIET is fortunate to have an advisory board comprising of eminent personages. Committed to ethical standards by governance system, sensitive to the society, Our aim is to make MVIET a "DISTINCT" technological institute.

## VISION

To provide a launching pad for career in the field of Technology & Research to build the value systems and skills in the human resources for providing services to the society .

## MISSION

- To build an educational Institute of excellence.
- To provide excellent teaching and practical exposure to every student for rich learning experience.
